Graceful degrade (G2): if the designated CEO hasn't submitted, the report still renders the team aggregate and shows “CEO (*John CEOExec*) — *not yet submitted*” in place of the CEO column. If no CEO is designated, a nudge links to the CEO picker.

Alignment profile CEO tier: On Track

Section scores — the CEO vs. the **team average of the other leaders** (CEO excluded), with the gap. Higher = stronger habit. ▲/▼ show direction, not good/bad.

Section	CEO	Team avg (excl. CEO)	Dev
People	3.1	5.3	▼ −2.2
Right people, right seats	2.8	5.3	▼ −2.5
Core values lived	3.4	5.3	▼ −1.9
Strategy	2.0	7.1	▼ −5.1
Execution	6.2	5.4	▲ +0.8
Cash	1.6	—	— (N<2)

Team tiers: On Track x2 Needs Focus x1 At Risk x1

N<2 fallback (R1-HIGH-1): the “Cash” section has fewer than one *other* submission, so the deviation is suppressed (“—”) rather than comparing the CEO to himself.

By question — CEO vs. team

CEO value (purple) against the non-CEO team mean (grey).
